Objective

To work in a competitive and challenging environment where I can utilize my technical expertise in programming and to build a career as a software developer by contributing to cutting-edge technologies while learning and adapting to new industry trends.

Education

- **Master of Computer Application (MCA)**
Don Bosco Arts and Science College, Angadikadavu (2023-2025)
- **Bachelor of Computer Application (BCA)**
Don Bosco Arts and Science College, Angadikadavu (2020-2023)
- **Higher Secondary Education**
St. Mary's HSS Edoor (2018-2020)

Technical Skills

- **Programming Languages:** Python, C, C++, Flutter
- **Database Management:** MySQL, SQLite
- **Web Development:** HTML5, CSS3, PHP
- **Tools and Software:** Visual Studio, PyCharm, Android Studio

Academic Projects

Car Club

- Developed a web-based application using Python (Django) and SQLite.
- Enabled users to search and order vehicle spare parts online with integrated payment functionality..
- Built distinct modules for Admin, Users, Spare Parts Shops, and Workshops, with role-based access control.
- Admin can manage users, products, workshops, and view comprehensive sales and service reports.

Bus Travel – Bus Ticket Booking Application

- Developed a full-stack bus ticket booking system with a React frontend and Django REST Framework backend.
- Implemented user authentication, bus listing, seat selection, and booking management functionalities.
- Designed responsive UI components for browsing routes, viewing seat availability, and tracking user bookings.
- Delivered a reliable and user-friendly booking experience with optimized data handling and clean interface design.

Certifications

- Python 101 for Data Science (IBM)
- The Complete Android 15 Course [Part 1]-Master Java & Kotlin (Udemy)
- Deloitte Australia Technology Job Simulation on Forage - June 2025: Completed a job simulation involving development and coding. Wrote a proposal for creating a dashboard

Soft Skills

- Effective communication
- Quick learner with the ability to apply new skills efficiently
- Time management
- Analytical and problem-solving skills
- Open to learning new technologies
